

2 Liter Foam Manual Dispenser

PRODUCT DESCRIPTION

Unique sealed cartridge dispensers that meet the distinct needs of any workplace and public facility environment.

WHERE TO USE

For exclusive use with SC Johnson Professional product cartridges to create tailored skin protection and hand hygiene programs.

METHOD OF USE

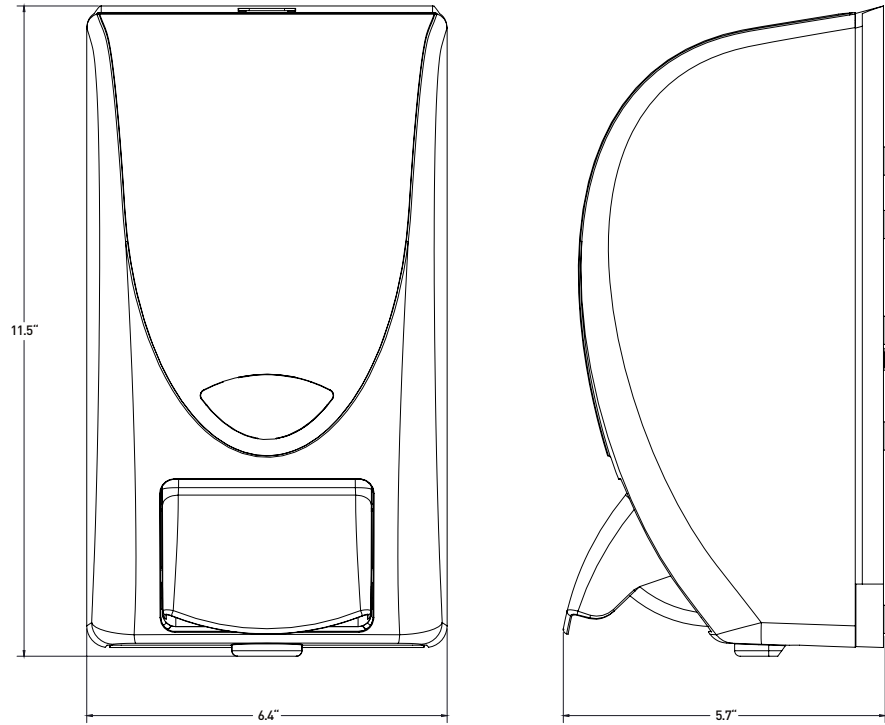

Large, 'easy-push' buttons dispense a controlled dose of product appropriate for the application required. Empty cartridges are easily replaced in seconds.

FEATURES	BENEFITS
Guaranteed for Life	Dispensers are manufactured from durable plastic components and rigorously tested for high usage environments, providing assurance of quality and long-term cost efficiency.
Spare Parts Available	In case of vandalism or accidental damage, spare parts can be provided allowing for repairs without having to take the dispenser off the wall.
BioCote® Protected 	Dispenser push buttons are exclusively protected by BioCote®, a silver-based antimicrobial agent that is incorporated into the plastic components at the time of manufacture and inhibits the growth of a broad spectrum of bacteria and molds; BioCote® will not wear-out or rub-off and is effective for the lifetime of the dispenser.
Fixed Product Dose	Delivers the exact amount required, controlling usage and reducing waste.
Hygienic, Airless Cartridges	The ultrasonically sealed cartridge and pump mechanisms prevent the ingress of air into the cartridge during use to help prevent product contamination and ensure 'fresh' product is dispensed every time.
Large Push Button	Allows easy use by hand or elbow; suitable in hygiene sensitive areas.
Unique Locking Mechanism	Helps prevent unauthorized access, pilferage and product contamination.
Sight Glass	Indicates the level of product in the cartridge which helps identify when product needs replacing.
Simple Cartridge Replacement	Designed for exclusive use with SC Johnson Professional product cartridges to be replaced in seconds, reducing maintenance time and costs.
No Waste	The air-tight cartridges are designed to collapse during use ensuring full evacuation of product with no wastage.
